

USA: Encyclopedia of dietary supplements 2nd edition published

The Office of Dietary Supplements (ODS), a division of the National Institutes of Health (NIH), recently announced the publication of its *Encyclopedia of Dietary Supplements, 2nd Edition*.

This new edition contains new chapters on several botanicals, including aloe vera, bilberry, bitter orange, black cohosh, kava, and saw palmetto.

Peer reviewed by experts, chapters include information such as ingredient reviews, including where applicable the latest data, its chemistry and functions, pre-clinical and clinical literature, regulatory status and references to relevant literature.
