

## **New Schedule for more China Business Training for NZ companies**

**New Zealand Trade and Enterprise's China Business Training includes both Scheduled Training - delivered in a two day programme consisting of four half day modules - and Custom Training - delivered according to company specific sector or issue. Cost per person is only \$50 and courses are being run in February...**

This format allows participants to select the scheduled module(s) most appropriate to their needs and the custom training options mean this programme provides access to the specific training you or your organisation requires to be successful in China.

Companies are eligible to participate in Scheduled Training at the cost of only \$50 per person per day. As class size is limited, priority will be given to NZTE clients.

Occam Consulting Limited has been contracted by NZTE to deliver this China Business Training programme. [www.occam.cn](http://www.occam.cn)

### **Dates:**
