...to increase the profile of New Zealand as a source of quality natural products and to foster the development of a sustainable natural products sector through collaboration

NPNZ News Update

DRAFT CODE FOR THERAPEUTIC AND HEALTH ADVERTISING

You will be aware that there are currently three codes in the therapeutic products and services category - the plan is to combine these and reduce them to ONE.

The Draft Code for Therapeutic and Health Advertising along with some Guidance Notes to assist you can be found [here](#).

This Draft Code has been written for the current regulatory environment. If and when the Natural Health & Supplementary Products Bill comes into law it will be revised as necessary.

The draft Code is principle based and all principles are common to all products, devices and services advertised regardless of whether they are for a therapeutic or health benefit. The principles in the Code apply to all audiences. Aspects of advertising compliance that are required in legislation or industry codes are not repeated in this Code. Members should be aware of and apply any legal or industry code requirements to their advertisements.

Please provide your feedback to Alison.quesnel@naturalproductsnz.org. The ASA has asked that all feedback comes via industry organisations. Please ensure that you send any feedback by Thursday 6 August.

MID-YEAR MEMBERS MEETING

We're looking forward to seeing as many of you as possible at our Mid-Year Meeting at 9.00am - 12.15pm on Tuesday 18 August.

The Programme will include an update from Alison, a presentation by Phil Rasmussen on using NZ ingredients, Callaghan advice and an update on the Natural Health & Supplementary Products Bill from the Ministry of Health.

CAREER OPPORTUNITIES

[EMPLOYERS Click Here](#)

Our industry is continuously changing and growing and is an exciting environment to work in. A recent survey showed that we bring over \$1.4 billion to the New Zealand economy and this is growing rapidly at present due to increased export sales.

Working opportunities range from technical, analytical to sales and marketing, regulatory and management. Our members operate companies providing services, ingredients, manufacturing, marketing and complete retail products. Major NZ and some international brands are part of our group. We are a close-knit and dynamic group to be a part of.

For more information about our members, or to view their websites, please visit our [Members Page](#).
