David

I wanted to wish you well this week. I know this is a big week for you. No, you don't know me. I live a-half a world away and work in NYC. But through your writing, I have begun the privilege to know you.

Cancer is a challenge, to say least, and I know that this round of chemo has been rough.

Just wanted to let you know that you have so very many people wishing you well, and I also have to thank you.

Thanks for reminding us all what it is to be a human. Your completely honest and unfiltered views are helping many people.

Dear Mr. Downs,

It is my pleasure to assist you.

Thank you for letting us know regarding the CD and slides

Mr. Downs, I wanted to inform you that based on a similar case for the same clinical trial we recently had- the charges for the clinical trial could go up to **a million dollars** US. I thought it would be important for you to know so you can decide whether it is financially affordable for you.

Please let me know if you would like to proceed with services at MGH

Thank you,
